

**Position:** RF Microwave Technician

**Type:** Full Time

**Company:** Cernex, Inc.

**Location:** Sunnyvale, California

**Job Description:**

Ability to test, tune, align, and repair RF, Microwave and Millimeter-Wave Amplifiers, Microwave Integrated Circuits (MIC), PC Board circuits, and Microwave Sub-Assemblies as well as assist in characterization and evaluation of Microwave and Millimeter-Wave products as necessary.

The qualified candidate will have an AA Degree or 5 or more years of experience. Familiarity with microwave thin-film circuit and experience with chip-and-wire hybrid tuning is a plus. Must be proficient with Microwave & RF Test Equipment. A strong knowledge of microwave test equipment, such as Scalar and Vector Network Analyzers, Spectrum Analyzers, Noise Figure Meters, and oscilloscopes, is required. Most of the work is done under a microscope using special hand-made tools and probes. Good hand and eye coordination are important. Technician must have good communication skills and be able to follow written processes and procedures.

Cernex, Inc. has been supplying customers worldwide with RF, Microwave and Millimeter-wave Limiters, Mixers, Detectors, and Solid-State Amplifiers, which include low noise and power amplifiers from 10 MHz to 110 GHz.

Cernex, Inc.'s products are designed to provide the best quality, service and delivery for each customer, whether the end use is for military, industrial or commercial applications.

Cernex, Inc. is an Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, pregnancy, sexual orientation, gender identity, national origin, age, protected veteran status, or disability status.
