

## **CCK18APC7 7mm Coaxial Calibration Kit**

### **FEATURES:**

- ◆ APC-7mm coaxial port:
- ◆ Broad-width: DC-18GHz
- ◆ High performance
- ◆ Calibration with fix loads

### **DESCRIPTION:**

CCK18APC7 coaxial calibration kit is an instrument grade calibration kit,  
The kit comes with one open, one short, one loads, and a N type torque wrench.

| Model    | Description          | Quantity |
|----------|----------------------|----------|
| C7OC     | 7mm open             | 1        |
| C7SC     | 7mm short            | 1        |
| CCLDC18C | 7mm load             | 1        |
| CTWN     | N type torque wrench | 1        |

### **SPECIFICATIONS:**(temperature=23+/-3C, frequency:DC-18GHz)

| Model    | Description          | Specification                         |
|----------|----------------------|---------------------------------------|
| C7OC     | 7mm open             | Deviation from normal phase<br>+/-0.5 |
| C7SC     | 7mm short            | Deviation from normal phase<br>+/-0.5 |
| CCLDC18C | 7mm load             | VSWR≤1.04                             |
| CTWN     | N type torque wrench | Torque Setting 135.6 +/-4.1 N.cm      |
